

# ADVENTURE. DRIVEN.

**SEVEN  
340**

**CATERHAM**

## If you're looking for the one, all-conquering Caterham that can do everything, then look no further...

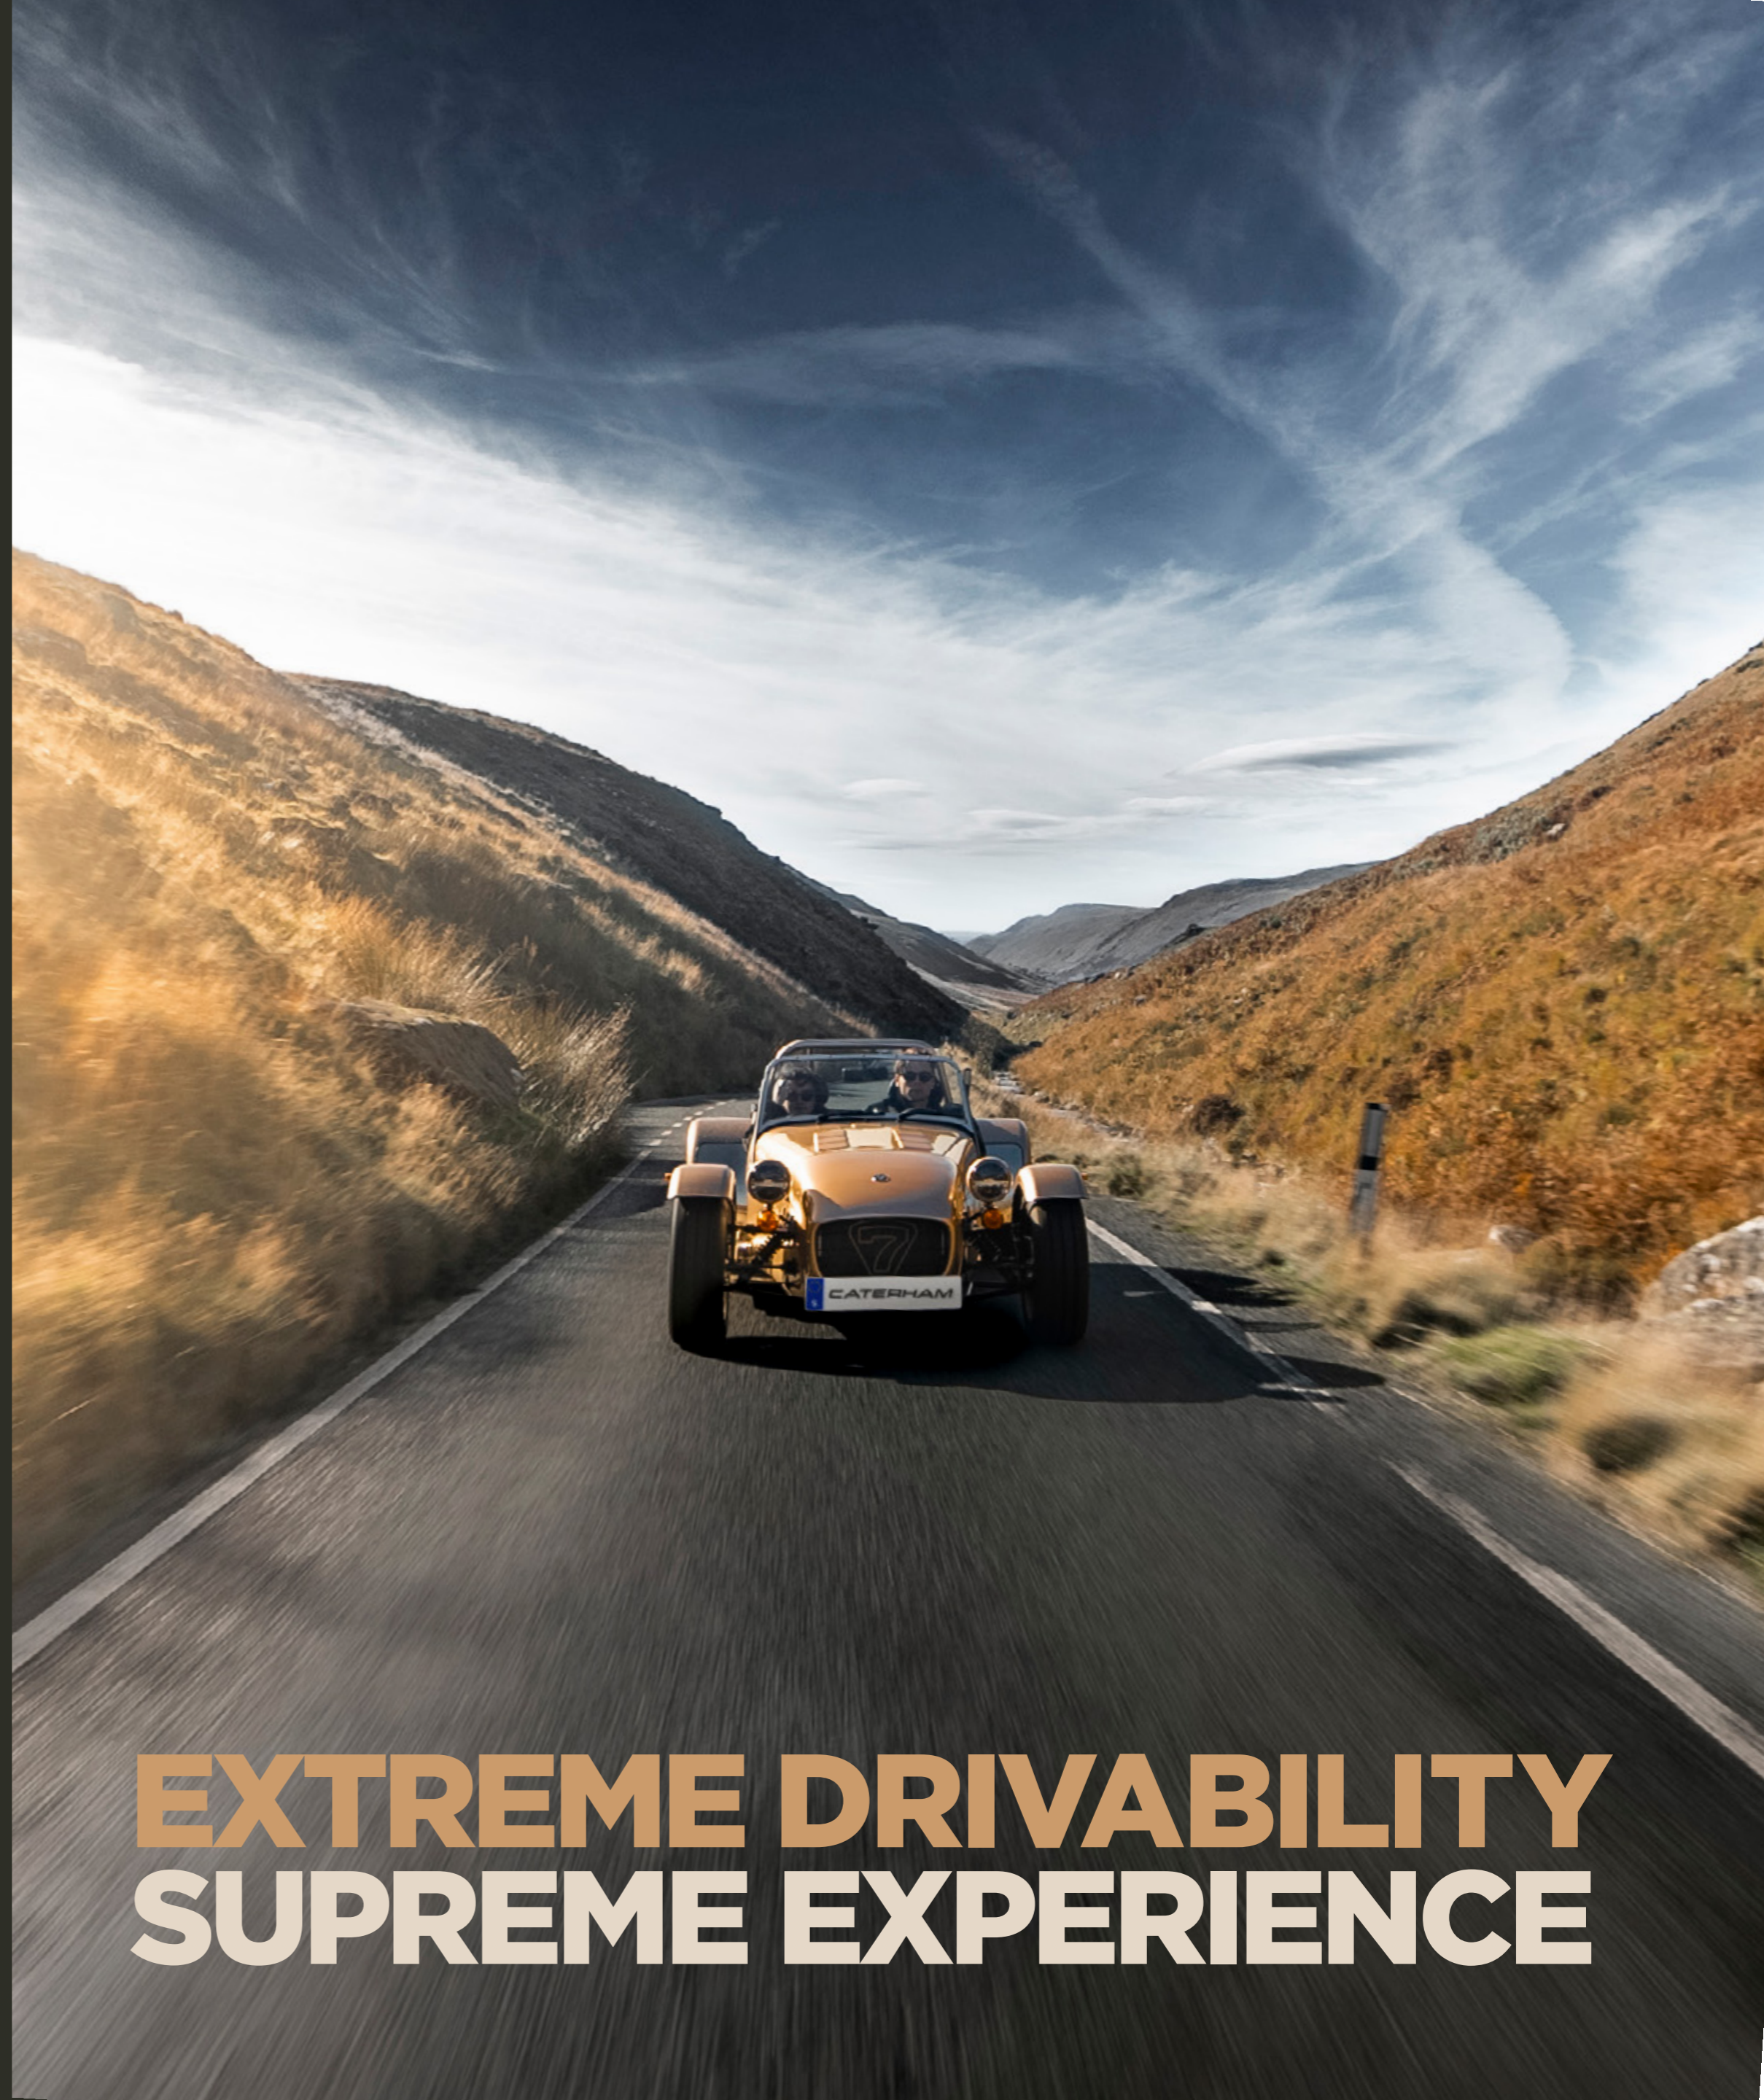

Sat in the middle of our European range, and replacing the immensely popular Seven 275, the new Seven 340 once again blends outright performance with accessible drivability. The only real difference being that this time round we've decided to add a little more "pizazz" to the mixture.

Gone is the 1.6 litre Ford Sigma engine in favour of the 2.0 litre Duratec that can normally be found further up the Seven food chain. This means more low-end torque and a punchy 170bhp to get the job done. But, as with its predecessor, the real magic lies in the overall balance we've engineered into the car.

With just over 500kg\* to push along, the 340 has a power-to-weight ratio designed to entertain without becoming overly aggressive or fatiguing. This car simply makes you want to drive, inspiring confidence and devouring any road you choose to put in front of it. Plus, the added "pizazz" we mentioned means on-track performance is sure to please even the most demanding of driver.

With two chassis options, S and R Pack variants and a range of options including Caterham Signature personalisation, the Seven 340 is finally here, and it's ready to take on anything you can throw at it.

\*Weight will vary depending on chassis and specified options.

# EXTREME DRIVABILITY SUPREME EXPERIENCE
